Ref: FCC Class II Permissive change for FCC ID: PX96235ANH

Original Grant Date: 11/25/2013

Applicant: WINMATE Communication INC.

Dear Examiner,

This is to request a Class II permissive change for FCC ID: PX96235ANH , originally granted on 11/25/2013.

The major change filed under this application is:

Additional Chassis added, product name: Rugged Tablet PC, model number: M101 Series with the following antenna : Brito / 39700010000F / PIFA Antenna / 2.2dBi

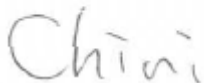

The maximum antenna gain is less than the original.

This RF module is electronic identical as previously certified.

Access to the transmitter must use common enclosure access methods so that end-users or installers do not require any special tools except for simple screw drivers, snap open covers or lock keys to access, remove and replace the transmitter.

SAR testing has been performed on the WLAN 2.4 GHz band as a result of the change. The implemented software permanently limits the 5GHz functionality of this tablet , so with no required to test the 5GHz functionality.

Sincerely Yours,

Chini Liao
