IHR ZEICHEN / YOUR REF. IHR SCHREIBEN / YOUR INFORM. UNSER ZEICHEN / OUR REF.

DATUM / DATE

13-Feb-02

Subject: Applicant: KIRK telecom A/S  
FCC ID: PXAWRFP4-2G4  
731 Confirmation number: EA886262  
Correspondence Reference Number: 21600

Dear Sir,

Submitted herewith, on behalf of our customer is an amendment to the subject application, provided in response to your request for technical information:

1. Internal photos with the shielding removed.

Please find attached the required internal photo without shielding.

2. Photos of the antenna.

The photos are already contained in the submitted application in the exhibit "External Photos". Please find these photos attached again. Two internal photos are completed.

3. Submit an RF exposure exhibit. The cover letter indicates that there is a SAR report but none came through.

According to Supplement C (01-01) to OET BULLETIN 65 (97-01) spread spectrum devices are categorically excluded from routine environmental evaluation because they generally operate at relatively low power levels where there is a high likelihood of compliance with the RF exposure standards.

This device is to be considered as mobile spread spectrum device which operates in a separation distance of at least 20 cm from all persons. If necessary mobile devices are normally evaluated for exposure potential with the MPE limits given in Appendix A of Supplement C (01-01) to OET BULLETIN 65 (97-01).

For appropriate calculation and evaluation please see attachment.

Please note, the SAR measurement and the submitted SAR measurement report was a voluntary act from the customer and it is only to be considered if the attached evaluation for exposure potential with MPE limits is not sufficient. The SAR report was submitted with the application and is visible on FCC website as exhibit "SAR Measurement report". Please find the report attached again.

4. The application indicates that the device is to be professionally installed. Submit the installation instructions with the appropriate RF exposure information.

Please find attached the required installation instruction with RF exposure information on last page.

We hope this information is sufficient to issue the grant. If you have further questions please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Baschin', followed by a horizontal line and a period.
