RE: Certification Application
FCC ID: PY3-ANT24BX

NETGEAR understands that the bi-directional booster ANT24BNA is part of a transmitting system and cannot be sold separately. NETGEAR already put in place the marketing & sell structure to enforce this statement. The ordering number for the ME103 and its 2 antennas of 2dBi is ME103NA. The ordering number for the wireless system comprising ME103, its 2 antennas of 2dBi, cable of 1.5m long, booster, optional injector, optional antenna and optional cable(s) is ME103BDL1NA. The booster ANT24BNA cannot be purchased individually and there is no ordering number for it.

Thank you for your attention to this matter.

Chuck Olson
VP of Engineering
