Subject: Revsied2: Re : TCB Review Comments for (B06-0420e- PY306100033- Netgear 11g router)

Dear Steve,

Thank you for your comments on this application!
The following items are our replies for your comments:

Question #1: All test plots are not readable, please increase the print resolution.
=>Report revised!

Question #2: P8 of test report; note 1 says card provides **two** completed transmitters and three receivers. And note 2 stated product is a 3x3 MIMO. Please correct the inconsistency. =>Typo, Report revised!

Question #3: report test only 3x3 MIMO, is 2x3 MIMO or other single chain transmission available to this device? If yes, please justify why those tests are not conducted.=>This device support only 3x3 MIMO as tested in the report; all other functions are not available for this version.

Question #4: User's manual 18-26 are all blank; please confirm if this is intended?=>Yes,they are blank.

Question #5: User's manual P 45-46, show country selection manual and is not allowed in US. Please clarify if end user allowed selecting different regulatory domain.=> This function is not available for US model as indicated in the manual that the function is in lighter color.

All comments are done! ^_^
Thanks!

Best Regards,

Question #5: User's manual P 45-46, show country selection manual and is not allowed in US. Please clarify if end user allowed selecting different regulatory domain.

2. Click **Wireless Settings** in the main menu of the WNR834A firewall.

4. Set the Region. Select the region in which the wireless interface will operate.

Best regards,

Steve Cheng
