Subject: Re : TCB Review Comments for (B06-0519a- PY3060100041,950512H01- Netgear 2x2 MIMO 11n PCI)

Dear Steve,

Thank you for your comments on this application!

Question #1: Why include OEM statement in the manual? Is product intended only for the OEM application?

=> This is typo, the usr's manual was revised.

Question #2: Is dual transmission available in 11b and 11g mode? If yes, please explain why dual transmission mode is not tested for 11b and 11g mode?

=>No. 11b and 11g only use antenna 1.

Thanks!

Best Regards,
