ntinue to routerlogin.net(unsafe)

Note: This example uses the Google Chrome browser. Your browser might be different.

1. Type https://www.routerlogin.net in the address field of your browser.

Your browser might display a security message.

2. Click the **Advanced** button.

Click the **Continue to routerlogin.net** link.

Follow the onscreen Setup Wizard prompts:

• Set a new admin password for local login.

• You can set a new WiFi network name (SSID) and WiFi password. If you do, reconnect with your new SSID and WiFi password to complete the setup.

Optional Step 4. Change the operation mode

If a device in your network already provides router functions, change to access point mode.

- 1. When logged in to the WAX202, select ADVANCED > Advanced Setup > Router / AP / Bridge Mode.
- 2. Select the **AP Mode** radio button and click the **Apply** button.
