Declaration Letter for Indoor Access Points

We, [Netgear Incorporated](#), attest that this device under FCC ID: PY322100561 complies with device protocol requirements and operational restrictions for Indoor Access Point Devices.

- a) This indoor access point to control the associated client/subordinate devices, allowing it to transmit without receiving an enabling signal. This mode can select a channel and initiate a network by sending enabling signals to client devices and subordinate devices.
- b) This Indoor Access Point operates in the 5.850-5.895 GHz band. It is supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- c) We acknowledge this device is subject to and in full compliance with the device restrictions listed below. All users are notified of these restrictions through the user manual.
 - Access Point operating in the 5.850-5.895 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
 - This device's operation will not be allowed on cars, trains, boats, and aircraft, except that low power indoor devices and associated client devices can operate on large aircraft above 10,000 feet.
 - A statement in a conspicuous location on the device and the user's manual: "FCC regulations restrict the operation of this device to indoor use only." & Section 15.19 Statement (if not on the device)

If you should have any questions regarding this declaration, please do not hesitate to contact us, thank you!

Sincerely yours,

David Kay, Regulatory Compliance Director
