

Let's get started

1 Download the Orbi app and install your Orbi WiFi system

On your mobile phone, download the Orbi app and follow the setup instructions.

2 Secure your devices with NETGEAR Armor™

NETGEAR Armor protects your family's WiFi with an automatic shield of security across your connected devices.

Tap the **Security** icon in your Orbi app to verify that your subscription is activated.

3 Do more with the app

Check out everything you can do on the Orbi app! Pause the Internet, run a speed test, set smart parental controls, and more.

(Availability of software services can vary by region.)

Troubleshooting

If you're having problems with the installation, try the following:

- If you already own another Orbi router and you used the Orbi app before, go to the dashboard and tap > **SET UP A NEW ORBI SYSTEM**.
- Turn off your modem and Orbi router and disconnect them. Reboot your modem. Reconnect your Orbi router to your modem, and try installing with the Orbi app again.
- If you're still unable to install your Orbi router using the Orbi app, manually install it using the router web interface. Visit orbilogin.com to access the router web interface.
