Re: Label Attestation
FCC ID: PY3AC778S

To whom it may concern:

This is to attest that Netgear will ship the product, model number AC778S without the battery installed. Specifically;

1. The label for this product is located in the battery compartment of the device under conditions specified in KDB 784748 D01 v07. The FCC ID will be readily visible at the time of purchase. The label statement required by 15.19(a) will be placed in the user manual because the device is too small to put it on the label.

Best Regards

Todd Van Cleave
Director, Hardware Development
Netgear Incorporated
