

## **Netgear Incorporated**

The NETGEAR AirCard 779S mobile hotspot is a variant of the AirCard 779 platform. For marketing purposes, the device will be identified in the North American region as the AirCard 779S (AC779S-100).

NETGEAR declares that any reference to the AC779S-100 within regulatory compliance test reports accurately reflects the Model: AirCard 779S.

Please do not hesitate to contact your local NETGEAR Systems Engineering representative for any additional information.

Respectfully,

A handwritten signature in black ink that reads "David Kay". The signature is written in a cursive style with a diagonal slash at the end of the name.

---

David Kay
