

November 11, 2015

To Whom It May Concern:

The NETGEAR AirCard 815S mobile hotspot is a variant of the AirCard 810S platform. For marketing purposes, the device will be identified in the North American region as the AirCard 815S (AC815S).

NETGEAR declares that any reference to the AC815S within regulatory compliance test reports accurately reflects the Model: AirCard 815S.

Please do not hesitate to contact your local NETGEAR SPBU Systems Engineering representative for any additional information.

Respectfully,

A handwritten signature in blue ink, appearing to read "Neal Skura", is positioned below the "Respectfully," text.
