Hi Mike,

Delta has revised page B-3, stating that once user selecting the wrong channel or frequency that the software won't be support.
Please check attached file for details.

Thank you and best regards,

Lucy

AN03T3237

Hi Lucy :

Question #1 reply : Acknowledged statement in B-3 of user manual. However, Page 3-12 figure 3-19 which provide a drop down manual to allow the end user to select the country that this access point is using. If the software is written in this way, Netgear has no control that the end user will select other country and transmit the frequency which is not authorized. It is FCC policy that the equipment manufacturer can not allow the end user to select the other frequencies which is not authorized in the U.S.

Best Regards

Mike Kuo

Hi Mike,

For question 1, Delta confirmed that it has already been specified in the page B-3 and please check if it's acceptable.

For question 2, we have revised the test report attached file, page38. Please help to check if they are acceptable and issue the grant asap.

Thank you and Best Regards,

Lucy

Notice_content

Question #1: Page 3-12 of user manual, the software provided with this access point allows the end user to select the country based upon the country which this access point is used. Such user selectable option is not allowed due to the end user may select the channel which is not authorized to be operated in the U.S.. Please address this issue.

Question #2: Section 7.5 of Test report, this access point should be classified as mobile device per 2.1091 of FCC rules. It is not a fixed transmitter based upon FCC definition. Note #1 statement is not correct. Since it is mobile device, there is no Sar consideration.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

TCB Q and A.txt

Hello Lucy,
Pls find the attached revised user manual if acceptable by TCB.

Thanks
Rita
