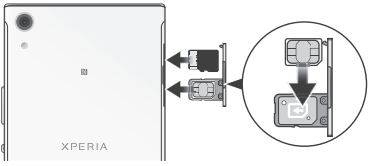
To insert the nano SIM card and the memory card



Do not cut your SIM card, for example using a blade or scissors, as this may damage your device.

1 Using your fingernail, drag out the SIM card tray.
2 Firmly place the SIM card in the correct orientation as shown in the illustration.
3 Insert the memory card in the correct orientation into the memory card slot as shown in the illustration.
4 Gently push the tray back into the slot until it fits into place.

To turn on the device

It is important to use the USB Type-C™ cable (provided) when charging your device as other types of USB cables can damage your device. It is recommended to charge the battery for at least 30 minutes before you turn on the device for the first time.

1 Press and hold down the power key ⏻ until the device vibrates.
2 Wait a moment for the device to start.

To activate the screen

- Briefly press the power key .

Screen protection

Before using your device, remove the protection film by pulling up on the protruding tab.

It is recommended to protect your device with a Sony branded screen cover or a protector intended for your Xperia™ model. The use of third party screen protection accessories may prevent your device from working correctly by covering sensors, lenses, speakers, or microphones and can invalidate the warranty.
