

## Device basics

- 1 Charging/Notification light
- 2 NFC
- 3 Volume/Zoom key
- 4 Power key
- 5 Nano SIM/Memory card slot
- 6 Camera key
- 7 Charger/USB Type-C™ cable port

## To insert the nano SIM cards and the memory card

! Do not cut your SIM cards, for example using a blade or scissors, as this may damage your device.

- 1 Using your fingernail, drag out the SIM card tray.
- 2 Firmly place the primary SIM card (SIM 1) in the correct orientation in position (1) as shown in the illustration.
- 3 Firmly place the additional SIM card (SIM 2) in the correct orientation in position (2) as shown in the illustration.
- 4 Insert the memory card in the correct orientation into the memory card slot as shown in the illustration.
- 5 Gently push the tray back into the slot until it fits into place.

## To turn on the device

! It is important to use the USB Type-C™ cable (provided) when charging your device as other types of USB cables can damage your device. It is recommended to charge the battery for at least 30 minutes before you turn on the device for the first time.

- 3 Drag out the label strips simultaneously, as shown in the illustration. To see the full text of the EU declaration of conformity, visit: <http://www.compliance.sony.de/>.
- 4 To view the FCC ID, turn the device over. The FCC ID is displayed on the other side of the label strips.

! Make sure to drag both label strips simultaneously to avoid tearing them.

## To view the regulatory compliance mark

- Open the phone dialer, then enter \*#07#.

### Legal information
