

13. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
<p>A photograph of a white rectangular device with a blue cross on its front face, placed on a circular turntable inside an anechoic chamber. The chamber walls are covered with black cross-shaped absorbers. A small white label with the number '16J22997' is on top of the device.</p>	<p>A photograph of the back of the white device, showing a blue cross on its surface. A red antenna structure is visible in the background. A small white label with the number '16J22997' is on the floor next to the device.</p>
<p>A photograph of the white device from a different angle, showing its side profile. A blue cross is visible on the front. The device is on a turntable. A small white label with the number '16J22997' is on top.</p>	<p>A photograph of the back of the white device, showing a blue cross. Various cables and connectors are visible on the back surface. A small white label with the number '16J22997' is on the floor.</p>
<p>A photograph of the white device on a yellow table. A small white label with the number '16J22997' is on the table next to the device. Cables are connected to the device.</p>	<p>A photograph of the white device on a yellow table, showing a side view. A small white label with the number '16J22997' is on the table. In the background, there is a computer monitor and other electronic equipment.</p>
