

### 13. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph showing a white rectangular test chamber on a table inside an anechoic chamber. A blue device is mounted on top of the chamber, and a red antenna is positioned to the right. The walls are covered with black pyramidal absorbers.	A photograph showing the back of the white rectangular test chamber. A red antenna is mounted on a stand to the right of the chamber. The anechoic chamber walls are visible.
A photograph showing the white rectangular test chamber from a different angle. A red antenna is visible in the foreground, and the chamber is surrounded by black absorbers.	A photograph showing the back of the white rectangular test chamber with a red antenna on a stand to the right. The floor of the anechoic chamber is also visible.
A photograph of a yellow table with a black device on top. A power cord is plugged into the device. The background is a plain wall.	A photograph showing a side view of the yellow table and black device. A power cord is visible, and a piece of equipment is in the background.
