Statement on User Manual update

Sony Ericsson Mobile Communications AB will update the User Manual for mobile phone T106 (FCC ID: PY71222101) with the following text:

"For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without metal parts between the phone and the body or when used with intended Sony Ericsson original body worn accessory. Use of other accessories may not ensure compliance with FCC RF exposure guidelines."

Statement regarding Sony Ericsson body worn accessory is included since such accessory is today available on the market. This bodyworn accessory is a non-metallic accessory that provides a minimum distance of 20 mm from the body. Our mobile phone T106 (FCC ID: PY71222101) has been tested on a distance of 15mm, as indicated in the submitted SAR test report.

The body worn accessory can be found on Internet as accessories for several of our models.
