Getting started

Battery, SIM card, turning on, start-up menu, calls, Walkman® player.

To insert the SIM card and charge the battery

- 1 Remove the battery cover.

- 2 Slide the SIM card into its holder.

- 3 Insert the battery with the label side up and the connectors facing each other.

- 4 Slide the battery cover into place.

- 5 Connect the charger to the phone.

- 4 Getting started

- 6 It may take up to 30 minutes before the battery icon appears on the screen.

- 7 Wait approximately 2.5 hours for the battery to be fully charged.

- 8 Remove the charger.

To turn on the phone

- 1 Press and hold . The first start-up may take a couple of minutes.
- 2 Select whether you want to use the phone with full functionality or the Walkman® player only.
- 3 Enter your SIM card PIN, if requested.
- 4 At the first start-up, select the language you want for your phone menus.
- 5 ► Yes if you want the setup wizard to help you get started, and follow the instructions that appear to complete the setup.

Start-up menu

When the start-up menu is activated, you can select to listen to music only, instead of using the phone with full functionality. This means all transmitters of the phone are turned off, preventing disturbance of sensitive equipment, for example, in an aeroplane or in a hospital. You cannot make calls, receive calls, or send messages, etc. You can only use the Walkman® player.

 *Always follow airline regulations and any flight crew instructions with respect to onboard use of electronic devices.*

To deactivate the start-up menu

▶ Settings ▶ the General tab ▶ Start-up menu. Select Don't show.

If you have selected Music only, some limited functions are still available such as the alarm, calendar and task reminders.

Memory Stick PRO Duo™

To insert the memory card, slide it into the slot as shown.

The memory card adds more storage space to your phone to store, for example, music, ringtones, video clips and pictures.

Instruction symbols

The following instruction symbols appear in this user guide:

-  Note

-  Indicates that a service or function is network- or subscription-dependent. Contact your network operator for details.

-  See also page...

- ▶ Use the selection keys or the navigation key to scroll and select,  *18 Keys and navigation*.

-  Press the navigation key centre.

-  Press the navigation key up.

-  Press the navigation key down.

-  Press the navigation key to the left.

-  Press the navigation key to the right.

More information

To view more instructions in your phone

From standby ▶ Settings
▶ the General tab ▶ Tips and tricks or Setup wizard.

Play/pause button

Press  to start or stop music. Choose between using this button for the Walkman® player or the FM radio, or the most recently used of these.

To change the button setting

From standby ▶ Settings
▶ the General tab ▶ Play/pause button.

Making calls

To make calls

- 1 Enter the phone number (with international prefix and area code if applicable) ▶ Call to make the call.
- 2 ▶ End call to end the call.

To receive calls

When the phone rings ▶ Answer.

To install Disc2Phone

- 1 Turn on your computer and insert the CD that came with your phone into the CD drive of your computer. The CD starts automatically and the installation window opens.
- 2 **Computer:** Select a language and click *OK*.
- 3 **Computer:** Click *Install Disc2Phone* and follow the instructions on the screen. When the installation is complete, the Disc2Phone icon appears on the desktop of your computer.

To transfer music

 *Do not remove the USB cable from the phone or computer during transfer, as this may corrupt the memory card. You cannot view the transferred files in your phone until you have removed the USB cable from the phone.*

- 1 Make sure your phone is turned on and connected to the computer with the USB cable.
- 2 **Computer:** Double-click the Disc2Phone icon on the computer desktop to open Disc2Phone.
- 3 **Computer:** For details on transferring music, please refer to Disc2Phone Help. Click  in the top right corner of Disc2Phone window.

- 4 **Computer:** You can get CD information (artist, track, etc.) via Disc2Phone if you are connected to the Internet while extracting music from a CD. You must also complete registration before you start.

You can find more information on how to move your favourite music to your W700 Walkman® phone at www.sonyericsson.com/support.

To play music and videos

- 1  WALKMAN. The Walkman® player browser opens.
- 2 Browse for songs by artist or track, or in playlists. You can also browse for video clips. Press  to open a list, press  to go back in a list.
- 3 Highlight a title  Play.

Walkman® player controls

- Press  to stop the playback. Press again to resume playing.
- Press  to go forward to the next music track or video clip.
- Press  to go back to the previous music track or video clip.

- Press and hold or to fast forward or rewind when playing music tracks or video clips.
- Press or to show a track-by-track view of the current list when playing music tracks.
- Press or to scroll through the playlist during playback. Files that are highlighted will not be selected until you press Play.
- When a video clip is playing, press to play the video in slow motion. To resume normal playback, Play.
- When a video clip is paused, press to play the video one frame at a time.
- Press to go to the Walkman® player, or to minimize the Walkman® player during playback.
- Press to go to the Walkman® player browser when in the Now playing view.

Browsing files

In the Walkman® player browser you can browse for music and video content in lists:

- Artists – lists music you have transferred using Disc2Phone.
- Tracks – lists all music files (not ringtones) in your phone and on the memory card.

- **Playlists** – create or play your own lists of sound files.
- **Videos** – lists all video clips in your phone and on the memory card.

Playlists

To organize the media files that are stored in the File manager, you can create playlists. Files in a playlist can be sorted by artist, title or by the order in which the files were added to the playlist. You can add a file to more than one playlist.

When you delete a playlist or a file from the playlist, it is not deleted permanently from the phone memory or the memory card. You can add the file to another playlist.

To create a playlist

- 1 Add enter the name of the playlist .
- 2 Select among the files that are available in the File manager. You can add several files at a time and you can also add folders. All files in the selected folders will be added to the playlist.

To add files to a playlist

- 1 ► WALKMAN ► Playlists select a playlist ► Open ► More ► Add media.
- 2 Select among the files that are available in the File manager.

To remove files from a playlist

- 1 ► WALKMAN ► Playlists select a playlist ► Open.
- 2 Select the file and press **(C)**.

To delete playlists

- WALKMAN ► Playlists select a playlist and press **(C)**.

Walkman® player options

- More to view a selection of the following options:

- **Now playing** – go to the Now playing view.
- **Add media** – add files or folders to the playlist.
- **Sort** – sort the playlist by artist, title or by the order in which files were added to the playlist.
- **Delete** – remove a file from the playlist. In playlists you have created, the file is only removed from the playlist. In the Artists list, the file is permanently deleted from the memory.
- **Rename** – rename the playlist. You can only rename user-created playlists.
- **Delete playlist** – delete the playlist. Only the playlist is deleted; the files are still listed in the File manager. You can only delete user-created playlists.
- **Equalizer** – change the settings of the treble and bass when playing music.
- **Information** – view information about the current track or video.
- **Play mode** – change the playback order of songs and video clips. Select **Shuffle** on to play the playlist files in random order, or **Loop** on to restart the playlist when the last file has been played.
- **Send** – send a sound or video clip.
- **Fullscreen** – view a video clip in fullscreen.
- **Capture frame** – when a video clip is paused, capture a picture from the video clip.

Camera

To take a picture

- 1 Activate the camera by sliding the lens cover button. Make sure the camera icon is highlighted .

- 2 Press  to take a picture. The picture is saved on the memory card as default (in the Camera pictures folder).
 - To take another picture, press  or press  to return to the viewfinder.
 - To deactivate the camera, close the lens cover or press and hold .

Camera overview

Select the option displayed in the upper right part of the screen.

Press (+) to zoom in or (-) to zoom out.

Press to take a picture or record a video clip.

Delete the picture or the video clip.

Press  or  to switch between still camera and video recorder.

Press  or  to adjust the brightness.

Turn the photo light on or off.

Select the option displayed in the lower right part of the screen.

Go back.

To record a video clip

- 1 Activate the video recorder.
Make sure the video recorder icon is highlighted .
- 2 Press  to start the recording.
You can view the counter above the viewer.
 - To pause the recording, ► **Pause**.
To resume the recording, ► **Resume**.
 - To end the recording, press .
The video clip is saved on the memory card as default (in the Cam. video clips folder).
 - To record a new clip (and save the current clip), press .
 - To deactivate the video recorder, close the lens cover or press and hold .

Camera settings

When you are in the viewfinder
► **Settings** to view a number of options to adjust and enhance your pictures and video clips before taking or recording them.

For more details ► **28 Camera and video recorder**.

Downloading settings

Download settings for mobile Internet (WAP), email and picture messaging (MMS) at www.sonyericsson.com/support.

To download settings

- 1 On your computer, browse to www.sonyericsson.com/support.
- 2 Select a region and a country.
- 3 Select the *Phone setup* tab, and select a phone model.
- 4 Select which setting you want to download to your phone.

Getting to know your phone

* Please note that some menus are operator-, network- and subscription-dependent.

** The menu depends on which contacts application is selected as default.

Keys and navigation

See also *7 More information.*

Standby screen, main menu and status bar

The standby screen is displayed when you are not calling or using the menus. This is where you can see, for example, the name of your operator, the time and the date.

From standby, press to enter the main menu, where the menus are shown as icons. Some submenus include tabs. Scroll to a tab using the navigation key and select an option.

The status bar at the top of the screen contains icons, which give information related to the phone and its activities.

Keys

	Enter the main menu from standby. Select highlighted items. During a call, press to view a list of options.
	Move through menus and tabs.
	Select options shown immediately above these keys on the screen.
	Go back one level in the menus, or leave an option unchanged. Press and hold to return to standby or end a function.
	Delete items, such as pictures, sounds and contacts. During a call, press and hold to mute the microphone.
	Open or minimize the Walkman® player.
	Take a picture or to record a video clip.
	Play or stop music.
	From standby, press and hold to call your voicemail service (if set).

2 - **9** From standby, press and hold any of these keys to reach a contact beginning with a specific letter.

1 - **9** From standby, press any of these keys and press Call to speed dial.

- +**
- From standby, press to view status information.
 - To reject an incoming call, quickly press twice.
 - Press once to turn off the ringtone when receiving a call.
 - During a call, press to increase the volume.
 - When using the Walkman® player (also when minimized), press to increase the volume. Press and hold to go back one track.
 - When using the camera, press to zoom in.
 - From standby, press and hold to voice dial, alternatively say your magic word (if set).

-
- To reject a call, quickly press twice when receiving a call.
 - Press once to turn off the ringtone when receiving a call.
 - During a call, press to decrease the volume.
 - When using the Walkman® player (also when minimized), press to decrease the volume. Press and hold to go forward one track.
 - When using the camera, press to zoom out.

(Mute) Press once to turn off the ringtone when receiving a call. From standby, press and hold to set the phone to silent. The alarm rings even if the phone is set to silent.

► **Info** Get more information, explanations or tips about selected features, menus or functions available in your phone.

► **More** Enter a list of options. There are different alternatives in the list of options depending on where you are in the menus.

Entering letters

There are two ways of entering letters, for example, when writing a message or writing a name in contacts:

- **Multitap text input**
You press each key as many times as needed to show the letter you want.
- **T9™ Text Input**
You press each key only once, even if the letter you want is not the first letter on the key.

To enter letters using T9™ Text Input

- 1 To enter text, you have to be in a function where text input is possible, for example, ► **Messaging** ► **Write new** ► **Text message**.
- 2 For example, if you want to write the word "Jane", press **5**, **2**, **6**, **3**.
- 3 If the word shown is the one you want, press **↵** to accept and add a space. To accept a word without adding a space, press **Ⓢ**. If the word shown is not the one you want, press **Ⓢ** or **Ⓢ** to view alternative words. Accept a word and add a space by pressing **↵**.
- 4 Continue writing your message. To enter a full stop or other punctuation marks, press **1** and then **Ⓢ** or **Ⓢ** repeatedly. Accept by pressing **↵**.

To select another writing method

Before, or while entering letters, press and hold **↵** to select another writing method.

File manager

Use the file manager to handle files (for example, pictures, video clips and sounds) saved in the phone memory and on the memory card. Items such as **Pictures**, **Videos**, **Sounds**, **Themes**, **Games** and **Applications** are saved as files in folders. All files that the phone cannot recognize are saved in the **Other** folder. You can create your own subfolders in some predefined folders, to which you can move your saved files.

When handling files, you can select several or all files in a folder at the same time. You can move and copy files between the memory card and the phone. Icons indicate where the files are saved.

All files, except some copyright-protected files, are automatically saved on the memory card. If the memory card is full, you cannot save anything on it until you have deleted some of the content from it or moved the content to the phone memory.

If the memory card is not inserted in the phone, files will be saved to the phone if there is enough memory left.

To use a file from the file manager

- 1 ▶ File manager and highlight a file in the Pictures or Sounds folder.
- 2 ▶ More ▶ Use as. Select what you want to use the file for.

To move a file to a folder

- 1 ▶ File manager and open a folder.
- 2 Scroll to a file, for example, a picture that you want to move ▶ More ▶ Manage files ▶ Move to folder.
- 3 Select the folder you want to move the file to, or select New folder and name the folder ▶ OK.

To create a subfolder

- 1 ▶ File manager and open a folder.
- 2 ▶ More ▶ New folder and enter a name for the folder.
- 3 ▶ OK to save the folder.

To select several files

- 1 ▶ File manager and select a file ▶ More ▶ Mark ▶ Mark several.
- 2 Scroll and select more files by pressing Mark or Unmark.

To copy a file to the phone or the memory card

- 1 Scroll to the file, for example, a sound file that you want to copy ▶ More ▶ Manage files.
- 2 Select Copy to phone or Copy to ext. mem. Now you have two files with the same name, but different icons in front of them, indicating where the file is saved.

To move or copy files to a computer

▶ 8 Install, transfer and play music and ▶ 33 Transferring files using the USB cable.

To delete a file from the memory card

Scroll to the file you want to delete from the memory card and press .

Formatting the memory card

You can format the memory card if you want to delete all information from it, or if it has been corrupted.

To format the memory card

- ▶ File manager and highlight a folder
- ▶ More ▶ Format ext. mem.

File information

Items that are downloaded, or received using one of the transfer methods available, may be copyright-protected. If a file is protected, you may not be able to copy or send that file. A DRM-protected file has a key symbol. You can view information of the file by highlighting it ► [More Information](#).

Calling

Calls, emergency calls, contacts.

Making calls

Before you can make or receive any calls, you must turn on the phone and be within range of a network.

To make a call

- 1 Enter the phone number (with international country code and area code if applicable).
- 2 ► Call to make the call.
- 3 ► End call to end the call.

To change the ear speaker volume

Press **+** or **-** to increase or decrease the ear speaker volume during a call.

To use the loudspeaker during a call

- 1 Press **⊕** and select Turn on speaker to turn on the loudspeaker.
- 2 Press **⊖** and select Turn off speaker to turn off the loudspeaker.

 *Do not hold the phone to your ear while using the loudspeaker. This could damage your hearing.*

To turn off the microphone

- 1 Press and hold **[M]**.
- 2 To resume the conversation, press and hold **[M]** again.

Receiving calls

To answer a call

- ▶ Answer.

To reject a call

- ▶ Busy or quickly press a volume button twice.

To check your missed calls

- 1 From standby ▶ Calls and scroll to the Missed calls tab. Use **[Left]** or **[Right]** to scroll between the tabs.
- 2 Use **[Left]** or **[Right]** to scroll to a number and ▶ Call to call a number.

Emergency calls

Your phone supports the international emergency numbers, for example, 112 and 911. This means that these numbers can normally be used to make an emergency call in any country, with or without a SIM card inserted, if a GSM network is within range.

 *In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.*

To make an emergency call

- Enter, for example, 112 (the international emergency number)
- ▶ Call.

To view your local emergency numbers

- ▶ Contacts ▶ Options ▶ Special numbers ▶ Emergency nos.

Contacts

You can save your contact information in the phone memory as contacts, or on the SIM card as names and numbers. You can choose which contacts information – Phone contacts or SIM contacts – is shown as default.

For useful information and settings

- ▶ Contacts ▶ Options.

Default contact

If you select to use Phone contacts as default, your contacts will show all the information saved in Contacts. If you select SIM contacts as default, the contacts will only show names and numbers saved on the SIM card.

To select default contacts

- 1 ► Contacts ► Options ► Advanced ► Default contacts.
- 2 Select Phone contacts or SIM contacts.

Phone contacts

Contacts is like an address book, in which you can store names, phone numbers and email addresses. You can also add pictures, ringtones and personal information, such as birthday, email, Web and street addresses, to the contacts.

When you add information to a contact, the information is organized under five tabs. Use , ,  and  to scroll between the tabs and their information fields.

To add a phone contact

- 1 ► Contacts ► New contact ► Add.
- 2 Enter the name directly or ► Add and enter the name ► OK.
- 3 Enter the number directly or ► Add and enter the number ► OK.
- 4 Select a number type.

- 5 Scroll between the tabs and select fields to enter more information. To enter symbols, for example, @ in an email address ► Symbols and select a symbol ► Insert.
- 6 When you have entered the information ► Save.

To automatically save names and phone numbers to the SIM card

- 1 ► Contacts ► Options ► Advanced ► Auto save on SIM.
- 2 Select On.

To add a picture or a ringtone to a phone contact

- 1 ► Contacts and select the contact you want to add a picture or ringtone to ► More ► Edit contact.
- 2 Use , ,  and  to scroll to the relevant tab. ► Picture: or Ringtone: ► Add.
- 3 Select a picture or sound. ► Save to save the contact.

Calling contacts

You can call one of your contacts, or a number on your SIM card.

If Phone contacts is set as default, you can choose to call from contacts or from the SIM card.

If SIM contacts is set as default, you can only call the numbers on the SIM card.

To call a phone contact

- 1 ► **Contacts.** Scroll to, or enter the first letter or letters of the contact you want to call.
- 2 When the contact is highlighted, press or to select a number ► **Call.**

To add a number from the call list to contacts

- 1 ► **Calls from standby** and select a tab.
- 2 Scroll to the number you want to add ► **More** ► **Save number** ► **New contact** to create a new contact, or select an existing contact to add the number to.

Sending contacts

You can send contacts using one of the available transfer methods.

To send a contact

- **Contacts** and select a contact
- **More** ► **Send contact** and select a transfer method.

Call list

The numbers of the most recent calls are saved in the call list.

To call a number from the call list

- 1 ► **Calls from standby** and select a tab.
- 2 Use , , and to scroll to the name or number you want to call ► **Call.**

Messaging

Picture messaging, Text messaging.

Your phone supports various messaging services. Please contact your service provider about the services you can use, or for more information, visit www.sonyericsson.com/support.

Picture messages (MMS)

Picture messages can contain text, pictures, video clips, camera pictures, sound recordings, and business cards. You can send picture messages to a mobile phone or an email address.

Before you start

You must have a subscription that supports picture messaging, and the recipient of the picture message must also have support for picture messaging.

If no Internet profile exists, you can automatically receive all the settings in a message from your network operator or from www.sonyericsson.com/support.

Before sending a picture message, make sure that:

- 1 The address of your message server is set ► **Messaging ► Settings ► Picture message ► Message server.**
- 2 You have entered the correct settings ► **Messaging ► Settings ► Picture message ► Internet profile.**

Creating and sending picture messages

When composing a picture message, you can select different items such as: **Picture, Text, Sound, Video, Sound recording and Signature.** You can also select **Use camera** to take a new picture or record a new video clip.

To create and send a picture message

- 1 ► **Messaging ► Write new ► Picture msg ► Add** to view a list of items to add to your message. Select an item.
- 2 ► **Add** to add more items to the message. You can **view** and select options to enhance the message by highlighting items in the message and pressing the left selection key.
- 3 When you have finished composing your message ► **More ► Send.**
- 4 ► **Enter phone no.** and enter the recipient's phone number, or

► **Contacts look-up** to retrieve a number or a group from **Contacts**. To enter an email address ► **Enter email addr.** A list below shows the last 10 recipients. You can also select a recipient from this list. ► **Send**.

To make a call while creating a picture message

- 1 While writing your message ► **More**.
- 2 ► **Make a call** and enter or retrieve a phone number ► **Call**. You return to the message.
- 3 To end the call ► **More** ► **End call**.

To save items from a picture message

When you have viewed a picture message ► **More** ► **Save items** and select an item from the list that appears.

Text messaging (SMS)

Text messages can contain simple pictures, animations, melodies and sound effects.

 *If you send a text message to a group, you are charged for each member of that group.*

Before you start

First make sure that the number of your service centre is set. The number is supplied by your service provider and is usually saved on the SIM card.

To set the service centre number

- 1 ► **Messaging** ► **Settings** ► **Text message** ► **Service centre**. If the service centre number is saved on the SIM card, it is shown in the list.
- 2 If there is no number in the list ► **Add** and enter the number, including the international "+" sign and country code ► **Save**.

Sending text messages

For information about entering letters, ► **20 Entering letters**.

 *Some language-specific characters use more space. For some languages you can deactivate National chars. to save space.*

To write and send a text message

- 1 ► **Messaging** ► **Write new** ► **Text message**.
- 2 Write your message ► **Continue**. If you want to save the message for later, press . ► **Yes** to save it in **Drafts**.

- 3 ▶ Enter phone no. and enter the recipient's phone number, or ▶ Contacts look-up to retrieve a number or a group from Contacts. To enter an email address ▶ Enter email addr. A list below the send options shows the last used recipients. You can also select a recipient from this list. ▶ Send.

 *To send a message to an email address, you need to set an email gateway number, ▶ Messaging ▶ Settings ▶ Text message ▶ Email gateway. The number is supplied by your service provider.*

To insert an item in a text message

- 1 While writing your message ▶ More ▶ Add item.
- 2 Select an item type and then select an item.

Imaging

Camera, video recorder, pictures.

Camera and video recorder

You can take pictures, record video clips, save and view them and send them as email attachments or in picture messages via picture messaging. ▶ 12 Camera.

 *If you try to record a strong light source such as direct sunlight or a lamp, the screen may black out or the picture may be distorted.*

Camera and video options

When the camera or video is activated ▶ Settings to view more options:

- Switch to video camera – to record a video clip instead of taking a picture.
- Switch to still camera – to take a picture instead of recording a video clip.
- Shoot mode (camera) – select from Normal for no frame, Panorama to combine several pictures into one wide picture, Frames to add a frame to your picture and Burst to take four pictures in rapid succession.

- Shoot mode (video) – select High quality video or For picture message if you want to send your video clip as a picture message.
- Picture size – choose between Large 1600x1200, Medium 640x480 and Small 160x120.
- Video size – choose between Large 176x144 and Small 128x96.
- Turn on night mode – enhance picture or video quality in poor lighting conditions with longer exposure time.
- Turn on light – to enhance lighting conditions.
- Turn on self-timer – the picture is taken a few seconds after you press the camera button.
- Effects – select different effects for your picture or video.
- White balance – adjust the picture or video colour to the lighting conditions.
- Picture quality – choose between Normal and Fine picture quality.
- Turn on time and date – add a time and date to your picture.
- Reset file no. – reset the file number counter.
- Save to – select Memory Stick or Phone memory to save the picture or video.

Transferring pictures to your computer

Using the USB cable, you can drag-and-drop camera pictures to a computer running Windows® 2000, Windows ME, Windows XP and Mac OS X.

To transfer pictures to a computer

- 1 Windows: Make sure you have installed the USB drivers,
 - 8 To install the USB drivers.
 - 2 With the computer and phone connected and turned on, (in Windows first open the Windows Explorer), browse to *Removable Disk (drive:)\DCIM* (if you have saved the camera pictures on the memory card).
 - 3 Either move or copy the camera picture files, or drag-and-drop them, to the desired folder on your computer.
- To further enhance and organize the camera pictures on a computer, Windows users can install Adobe® Photoshop® Album Starter Edition, included on the CD that comes with phone.

Pictures

Your phone comes with a number of pictures and animations. You can:

- Use a picture as wallpaper and as a screen saver.
- Assign a picture to a contact.
- Exchange pictures using one of the available transfer methods.

To view your pictures

- 1 ▶ File manager ▶ Pictures.
- 2 The pictures are shown in thumbnail view. To get a full view ▶ View.

To use a picture

- 1 ▶ File manager ▶ Pictures and scroll to the picture you want to use ▶ More ▶ Use as.
- 2 Select what you want to use the picture for.

To send a picture

▶ File manager ▶ Pictures and scroll to the picture you want. ▶ More ▶ Send and select a transfer method.

 *All phones that support pictures can receive the picture size 160 x 120. Some phones that support pictures cannot receive picture sizes of more than 160 x 120. The best picture size to view on a computer is 1600 x 1200.*

Entertainment

Radio, PlayNow™, ringtones.

Radio

Your phone features an FM radio with RDS functionality. To use the radio, you must connect the handsfree to your phone, as the handsfree works as an antenna. The radio can be used as an alarm signal.

You must switch your phone on to use the radio. Do not switch the phone on in areas where mobile phones are prohibited, ▶ 36 Guidelines for Safe and Efficient Use.

To listen to the radio

Connect the handsfree to your phone ▶ Radio.

To minimize, return to standby and use other functions with the radio still playing, press .

Radio control

- ▶ Search or press and hold  or  to find the next channel on the band.
- Press  or  to move 0.1 MHz along the FM band.
- Press  or  for the next preset channel.

Saving radio channels

You can save up to 20 of your favourite radio channels.

 *To save channels quickly in positions 1 to 10, press and hold 0-9, (where 0 represents the number 10). To select a channel you have saved in positions 1 to 10, press 0-9.*

To save a radio channel

► Radio ► More ► Save select a position ► Insert. The channel is saved in a list.

Radio options

► More for the following options:

- Turn off – turn the radio off.
- Save – save the current frequency in a list of channels.
- Channels – select, rename, replace or delete saved channels.
- Turn on speaker – listen through the loudspeaker.
- Auto save – automatically search for and save channels in a list of channels. Previously saved channels will be replaced.
- Set frequency – enter a frequency manually. The figures you enter will be automatically adjusted to valid frequencies. Press **(F→F)** to go directly to Set frequency.

- RDS – options to turn on or off alternative frequency (AF) and to show or hide station information.
- Turn on Mono – turn mono sound on.

PlayNow™

 *This function is network- or operator-dependent. Please contact your network operator for information about your subscription and PlayNow™.*

With the PlayNow™ service, you can listen to music tones before you decide to purchase and download them to your phone.

Before you start

First make sure that:

- You have a phone subscription that supports GPRS data transmission.
- You have entered the correct WAP settings in your phone,
 - *13 Downloading settings.*
- You may also have to register as a WAP user with your service provider or network operator.
- You have free memory in your phone.

Downloading a music tone from the PlayNow™ list

The price for the download is the price appearing on the screen when you select to download and save a music

tone. Your phone bill or prepay phone card will be charged by your network operator after you have purchased the tone.

To listen to a music tone

► PlayNow™ and select a music tone that you want to listen to.

To download a music tone

- 1 When you have listened to a music tone that you want to download, first verify the purchase details above, then read the terms and conditions provided in the phone kit. By agreeing to purchase in the phone, you also agree to accept these conditions.
- 2 ► Yes to download the music tone. The music tone is automatically saved in File manager ► Sounds.

 *The service may not always be available in all countries or when you are using a network other than your network operator's – a message will appear to inform you about this when selecting the PlayNow™ icon.*

Ringtones and melodies

You can exchange melodies using one of the available transfer methods.

You are not allowed to exchange some copyright-protected material. A DRM-protected file has a key symbol.

To select a ringtone

From standby ► Settings and scroll to the Sounds & alerts tab ► Ringtone.

To turn the ringtone on or off

Press and hold  from standby. All signals except the alarm signal are turned on or off.

To set the ringtone volume

- 1 From standby ► Settings and scroll to the Sounds & alerts tab ► Ring volume and press  or  to decrease or increase the volume.
- 2 ► Save to save the setting.

To set the vibrating alert

► Settings ► the Sounds & alerts tab ► Vibrating alert and select the setting you want.

Sounds and alerts options

From Settings ► the Sounds & alerts tab, you can set:

- Message alert – select how you want to be notified of an incoming message.
- Key sound – select what sound you want the keys to make when you press them.

Connectivity

USB cable, update service.

Transferring files using the USB cable

When you connect your phone to a computer using the USB cable, the memory card appears as a drive on the computer. If you are a Windows user, you can install the USB cable drivers using the CD that comes with your phone, ➤ *8 To install the USB drivers.*

 *Make sure you only use the USB cable that comes with the phone, and that you connect the USB cable directly to your computer. Do not remove the USB cable from the phone or computer during transfer.*

You can use the drag-and-drop functionality in your computer to:

- Transfer files between your phone and the computer.
- Move, delete and organize files on the memory card.

Files must be saved in specific folders on the memory card:

- Pictures must be saved in \MSSEMC\Media files\image\
- Music must be saved in \MSSEMC\Media files\MP3, or copied using Disc2Phone, ➤ *8 Walkman® player.*
- Java applications and games must be saved in \MSSEMC\Media files\other\
- Pictures taken by the camera are saved in the \DCIM\ folder.

 *Your computer needs to have one of the following operating systems to be able to use this feature: Windows® 2000, Windows ME, Windows XP and Mac OS X.*

To end a USB connection

- 1 Exit the USB connection on your computer. In Windows, click the Safely Remove Hardware icon in the taskbar, and follow the instructions.
- 2 Remove the USB cable from your phone.

Update service

With the Sony Ericsson Update Service you can keep your phone updated with the latest software. When a new software version is available, you can download and install it using the USB cable provided and a computer with an Internet connection.

To update the phone software

- 1 Visit www.sonyericsson.com/support.
- 2 Select a region and country.
- 3 Enter the product name.
- 4 Select Sony Ericsson Update Service and follow the instructions that appear.

Important information

Sony Ericsson Consumer Web site

On www.sonyericsson.com/support there is a support section where help and tips are only a few clicks away. Here you find the latest computer software updates and tips on how to use your product more efficiently.

Service and support

From now on you will have access to a portfolio of exclusive service advantages such as:

- Global and local websites providing support.
- A global network of Call Centers.
- An extensive network of Sony Ericsson service partners.
- A warranty period. Learn more about the warranty conditions in this user guide.

On www.sonyericsson.com, under the support section in the language of your choice, you will find the latest support tools and information, such as software updates, Knowledgebase, Phone setup and additional help when you require it.

For operator-specific services and features, please contact your network operator for more information.

You can also contact our Call Centers. See the phone number for the nearest Call Center in the list below. If your country/region is not represented in the list, please contact your local dealer. (The phone numbers below were correct at the time of going to print. On www.sonyericsson.com you can always find the latest updates.)

In the unlikely event that your product needs service please contact the dealer from whom it was purchased or one of our service partners.

Save your original proof of purchase, you will need it if you need to claim warranty.

For a call to one of our Call Centers you will be charged according to national rates, including local taxes, unless the phone number is a toll-free number.

Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone. These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed below or you have any doubt of the proper function make sure to have the product checked by certified service partner before charging or using it. Failure to do so might lead to risk for product malfunction or even a potential hazard to your health.

Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- * Always treat your product with care and keep it in a clean and dust-free place.
- * Warning! May explode if disposed of in fire.
- * Do not expose your product to liquid or moisture or humidity.
- * Do not expose your product to extreme high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).
- * Do not expose your product to open flames or lit tobacco products.
- * Do not drop, throw or try to bend your product.
- * Do not paint your product.

- ✦ Do not attempt to disassemble or modify your product. Only Sony Ericsson authorised personnel should perform service.
- ✦ Do not use your product near medical equipment without requesting permission.
- ✦ Do not use your product when in, or around aircraft, or areas posted "turn off two-way radio".
- ✦ Do not use your product in an area where a potentially explosive atmosphere exists.
- ✦ Do not place your product or install wireless equipment in the area above your car's air bag.

CHILDREN

KEEP OUT OF CHILDRENS REACH. DO NOT ALLOW CHILDREN TO PLAY WITH YOUR MOBILE PHONE OR ITS ACCESSORIES. THEY COULD HURT THEMSELVES OR OTHERS, OR COULD ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BE DETACHED AND CREATE A CHOKING HAZARD.

Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug will not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous. The talk and standby times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when using the mobile phone.

Turn off your mobile phone before removing the battery. Do not allow the battery to be put into the mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. This could short-circuit and damage the battery. Use the battery for the intended purpose only.

Personal medical devices

Mobile phones may affect the operation of cardiac pacemakers and other implanted equipment.

Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, place it at the ear opposite the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place, immediately turn off your mobile phone. Contact your cardiologist for more information.

For other medical devices, please consult your physician and the manufacturer of the device.

Driving

Please check if local laws and regulations restrict the use of mobile phones while driving or require drivers to use handsfree solutions. We recommend that you use only Sony Ericsson handsfree solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna supports the installation.

Always give full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection under all conditions. Therefore you should never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

Antenna

This phone contains a built in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and standby times.

Radio frequency (RF) exposure and SAR

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements.

Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network.

Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

For phones sold in the U.S., before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC

for each model. For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson body worn accessory intended for this phone. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information for this mobile phone model is included with the material that comes with this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, on: www.sonyericsson.com.

Accessible Solutions/Special Needs

For phones sold in the U.S., you can use your TTY terminal with your Sony Ericsson mobile phone (with the necessary accessory). For information on Accessible Solutions for individuals with special needs call the Sony Ericsson Special Needs Center at 877 878 1996 (TTY) or 877 207 2056 (voice), or visit the Sony Ericsson Special Needs Center at www.sonyericsson-snc.com.

Disposal of old electrical & electronic equipment

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this

product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, ("Device") contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies ("Sony Ericsson") and its third party suppliers and licensors ("Software").

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable license to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software.

For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms

and conditions set out in this license, it will terminate with immediate effect.
 Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.
 The validity, construction and performance of this license shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Sony Ericsson Mobile Communications AB, S-221 88 Lund, Sweden, (Sony Ericsson), provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com/support to get further information.

Our warranty

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer, and for a subsequent period of one (1) year.

What we will do

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region* where you

purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions

- 1 The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorised dealer, specifying the date of purchase and serial number**, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
- 2 If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.
- 3 This warranty does not cover any failure of the Product due to normal wear and tear, or due to

misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid. A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson. Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable. Minor variations in camera image appearance may occur between phones. This is nothing uncommon and is not regarded as a defective camera module.

- 4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.
- 5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.
- 6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.
- 7 Tampering with any of the seals on the Product will void the warranty.
- 8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL

IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS, TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales/purchase contract.

***EUROPEAN UNION (EU)**

If you have purchased your Product in an EU country you can have your Product serviced, under the conditions set out above, within the warranty period in any EU country where an identical Product is sold by an authorised Sony Ericsson distributor. To find out if your Product is sold in the EU country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country of original purchase, for example due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other EU countries. It may not be possible to repair SIM-locked Products.

** In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Declaration of Conformity

We, **Sony Ericsson Mobile Communications AB** of Nya Vattentorget S-221 88 Lund, Sweden declare under our sole responsibility that our product

Sony Ericsson type AAB-1022014-BV and in combination with our accessories, to which this declaration relates is in conformity with the appropriate standards 3GPP TS 51.010-1, EN 301489-7, EN 300328, EN 301489-17 and EN 60950, following the provisions of, Radio Equipment and Telecommunication Terminal Equipment directive **99/5/EC** with requirements covering EMC directive **89/336/EEC**, and Low Voltage directive **73/23/EEC**.

Lund, February 2006

CE 0682

Shoji Nemoto,
