Z310a HAC Test Sample Production Level

Mr. Stephen Liu
SAR/EMC/Acoustics Engineer
PCTEST Laboratories

Dear Mr. Liu,

This is to inform you that the pre-production Z310a hardware you received for Hearing Aid Compatibility (HAC) testing is consistent with planned production samples. Specifically this relates to:

Model number:	Sony Ericsson Z310a
Type number:	AAB-1032021-BV
FCC id:	PY7A1032021

The samples you received for testing were built in the Z310a production facility during 2007. Z310a is a Power Class 4 850 & Power Class 1 1900 MHz mobile station. There is no hardware difference between the samples you received and the production units. The RF calibration procedure used for your samples and production units is also the same.

Best regards,
Alex Nixon
Project Office
Sony Ericsson Mobile Communications, Inc.
