

## S500i HAC Test Sample Production Level

Mr. Stephen Liu  
SAR/EMC/Acoustics Engineer  
PCTEST Laboratories

Dear Mr. Liu,

This is to inform you that the pre-production S500i hardware you received for Hearing Aid Compatibility (HAC) testing is consistent with planned production samples. Specifically this relates to:

Model number:	Sony Ericsson S500i
Type number:	AAC-1052041-BV
FCC id:	PY7A1052041
IC id:	4170B-A1052041

The samples you received for testing were built in the S500i production facility during fiscal week 14 of 2007. S500i is a Power Class 4 850 & Power Class 1 1900 MHz mobile station. There is no hardware difference between the samples you received and the production units, other than a label indicating the production units are not prototypes. The RF calibration procedure used for your samples and production units is also the same.

Best regards,  
John Barile
