This is The Label Tray for K858c with printed generic information

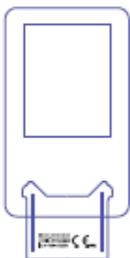

K858c
Typenumber AAC-1052061-BV
FCC PY7A1052061
IC 4170B-A1052061

K858 generic information

Instructions:

The blue lines are for reference only and not to be printed (it is the outer shape of the label tray).
The information must be positioned on the bottom part of the label tray. It is recommended to position the information as on the image.
The reason that the information must be positioned on the bottom part of the labeltray is that it must be easy to read it when the labeltray is mounted into the phone
Scale:1:1

Conceptual image:
Shows what is up and down on the labeltray.
