Getting started

SIM card

The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger and battery (if inserted) before you insert or remove the SIM card.

PIN

You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits such as 112 or 911. You can see and call an emergency number without entering a PIN, if a network is available.

- ! If you enter the wrong PIN three times in a row, the SIM card is blocked. See *SIM card lock* on page 33.

To insert the SIM card

- 1 Remove the battery cover.
- 2 Slide the SIM card into its holder with the gold-coloured contacts facing down.

To insert the battery

- 1 Insert the battery with the label side up and the connectors facing each other.
- 2 Slide the battery cover into place and lock it.

Turning on the phone

To turn on the phone

- 1 Press and hold down .
- 2 Open the slider and enter your PIN, if requested.
- 3 Select **OK**.
- 4 Select a language.

5 Select **Yes** to use the setup wizard.

- ! If you make a mistake when you enter your PIN, you can press **(C)** to delete numbers from the screen.

Standby

After you have turned on the phone and entered your PIN, the name of the network operator appears. This view is called standby. Your phone is now ready for use.

To turn off the phone

- Press and hold down **(⏻)**.
- ! Before turning off the phone, you must return to standby.

Memory card

- ! You may have to purchase a memory card separately.

Your phone supports a microSD™ memory card, adding more storage space to your phone. This type of card can also be used as a portable memory card with other compatible devices.

You can move content between a memory card and the phone memory.

To insert a memory card

- Remove the battery cover and insert the memory card with the gold-coloured contacts facing down.

To remove a memory card

- Remove the battery cover and slide the memory card to remove it.
