## HSUPA

**Type AAD-3880005-BV, FCC ID: PY7A3880005  
IC: 4170B-A388005**

### Statement:

The Type AAD-3880005 with FCC ID: PY7A3880005 include updated firmware support for the HSUPA technology.

The HSUPA feature is now enabled with improved performance to the MPR, Maximum Power Reduction, accordingly to the 3GPP specification and the Cubic Metric Method, (ref 3GPP 25.101).

None of the Subtest 1-5 (ref 3GPP TS 34.121) exceeds the power rating stated in RMC mode (Voice). The SAR report revised edition includes the HSUPA Subtest 1-5 power tables.

There is no influence to the already granted EMC and SAR performance.
