💡 Tip

⚠ Warning

> Use a selection or navigation key to scroll and select. See *Navigation* on page 13.

Getting started

Assembly

Before you start using your phone, you need to insert a SIM card and the battery.

To insert the SIM card

- 1 Remove the battery cover.
- 2 Slide the SIM card into its holder with the gold-coloured contacts facing down.

To insert the battery

- 1 Insert the battery with the label side up and the connectors facing each other.
- 2 Attach the battery cover.

Turning on the phone

To turn on the phone

- 1 Press and hold down .
- 2 Enter your SIM card PIN, if requested, and select **OK**.
- 3 Select a language.
- 4 Follow the instructions to use the setup wizard for basic settings and useful tips.

💡 If you want to correct a mistake when you enter your PIN, press .

SIM card

When you register as a subscriber with AT&T, you get a SIM (Subscriber Identity Module) card, which contains information about your subscription. Always turn off your phone and detach

the charger before you insert or remove the SIM card.

- 💡 You can save contacts on the SIM card before you remove it from your phone. See *To copy names and numbers to the SIM card on page 34*.

PIN

You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by AT&T. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

- ! If you enter the wrong PIN three times in a row, the SIM card is blocked. See *SIM card lock on page 56*.

Standby

After you have turned on your phone and entered your PIN, the name of the network operator appears. This view is called standby. Your phone is now ready for use.

Using other networks

Making and receiving calls, using messaging, and data transfer, for example, Internet-based services,

outside your home network (roaming), may incur additional costs. Contact your operator for more information.

Help

In addition to this User guide, Feature guides and more information are available at www.sonyericsson.com/support.

Help and information are also available in your phone.

To view information about functions

- Scroll to a function and select [Info](#), if available. In some cases, [Info](#) appears under [Options](#).

To view the phone status

- Select [Menu](#) > [Settings](#) > [General](#) > [Phone status](#).

Charging the battery

The phone battery is partly charged when you buy it.

To charge the battery

- 1 Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
- 2 Remove the charger by tilting the plug upwards.

💡 *You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.*

Camera tips and tricks

Rule of thirds

Don't place your subject in the middle of the frame. By placing it a third of the way in, you will achieve a better result.

Hold it steady

Avoid blurry pictures by holding the camera steady. Try to steady your hand by leaning it against a solid object.

Get closer

By getting as close as possible to your subject you won't have to rely on the zoom. Try to fill your viewfinder with your subject.

Stay within the flash range

Pictures taken beyond the maximum flash range will be too dark. The maximum flash range is about four steps away.

Consider variety

Think different angles, move towards the object. Take some vertical pictures. Try different positions.

Use a plain background

A plain background will help to highlight your subject.

Keep your lens clean

Phones are used in all manner of weather and places and carried in pockets and bags. This results in the camera lens becoming dirty and covered with fingerprints. Use a soft cloth to clean the lens.

Viewing and tagging photos

To view photos in a slide show

- 1 Select [Menu](#) > [Entertainment](#) > [Photo](#) > [Camera album](#).
- 2 Select a month.

If you select [Reset device](#), your settings and content, such as contacts, messages, pictures, sounds and downloaded games, will be deleted. You may also lose content that was in the phone at purchase.

To reset the phone

- 1 Select [Menu](#) > [Settings](#) > [General](#) > [Master reset](#).
- 2 Select an option.
- 3 Follow the instructions that appear.

I cannot charge the phone or battery capacity is low

The charger is not properly connected or the battery connection is poor. Remove the battery and clean the connectors.

The battery is worn out and needs to be replaced. See *Charging the battery* on page 7.

No battery icon appears when I start charging the phone

It may take a few minutes before the battery icon appears on the screen.

Some menu options appear in grey

A service is not activated. Contact your network operator.

I cannot use Internet-based services

Your subscription does not include data capability. Settings are missing or incorrect.

You can download settings using the setup wizard or by going to www.sonyericsson.com/support.

To download settings

- 1 Select **Menu > Settings > User help > Settings download**.
- 2 Follow the instructions that appear.

 *Contact your network operator or service provider for more information.*

I cannot send messages from my phone

Most messages require a service centre number to send them. The number is supplied by AT&T and is usually saved on the SIM card. If the number to your service centre is not saved on your SIM card, you must enter the number yourself. To send most picture messages, you must set an MMS profile and the address of your message server.

To send most multimedia messages, you must set an MMS profile and the address of your message server. If no MMS profile or message server exists, you may be able to obtain the settings automatically from AT&T or at www.sonyericsson.com/support.

To enter a service centre number

- 1 Select **Menu > Settings > Connectivity > Message settings > Text Message** and scroll to **Service centre**. The number is shown if it is saved on the SIM card.
- 2 If there is no number shown, select **Edit**.
- 3 Scroll to **New ServiceCentre** and select **Appear**.

- 4 Enter the number, including the international “+” sign and country code.
- 5 Select [Save](#).

To select an MMS profile

- 1 Select [Menu](#) > [Settings](#) > [Connectivity](#) > [Message settings](#) > [Multimedia Msg](#).
- 2 Select an existing profile or create a new one.

To set the message server address

- 1 Select [Menu](#) > [Settings](#) > [Connectivity](#) > [Message settings](#) > [Multimedia Msg](#).
- 2 Scroll to a profile and select [Options](#) > [Edit](#).
- 3 Scroll to [Message server](#) and select [Edit](#).
- 4 Enter the address and select [OK](#) > [Save](#).

The phone does not ring or rings too softly

Make sure that [Silent mode](#) has not been set to [On](#). See *To turn off the ringtone* on page 55.

Check the ringtone volume. See *To set the ringtone volume* on page 55.

Check the profile. See *To select a profile* on page 54.

Check the divert call options. See *To divert calls* on page 36.

The phone cannot be detected by other devices using Bluetooth wireless technology

You have not turned the Bluetooth function on. Make sure that the visibility is set to [Show phone](#). See *To turn on the Bluetooth function* on page 28.

I cannot synchronise or transfer content between my phone and my computer, when using a USB cable.

The cable or software has not been properly installed. Go to www.sonyericsson.com/support to read Feature guides which contain detailed installation instructions and troubleshooting sections.

I have forgotten my code memo passcode

If you forget your passcode, you must reset the code memo. This means that all entries in the code memo are deleted. The next time you enter the code memo, you must proceed as if you are opening it for the first time.

To reset Password Saver

- 1 Select [Menu](#) > [Tools & Apps](#) > [Organiser](#) > [Password Saver](#).

- 2 Enter an incorrect passcode three times.
- 3 [Reset Password Saver and delete all items?](#) appears.
- 4 Select [Yes](#).

Where can I find the regulatory information such as my IMEI number if I cannot turn on my phone?

Error messages

Insert SIM

There is no SIM card in your phone or you may have inserted it incorrectly.

See *To insert the SIM card* on page 6.

The SIM card connectors need cleaning. If the card is damaged, contact AT&T.

Insert correct SIM card

Your phone is set to work only with certain SIM cards. Check if you are using the correct operator SIM card.

Wrong PIN/Wrong PIN2

You have entered your PIN or PIN2 incorrectly.

Enter the correct PIN or PIN2 and select [Yes](#).

PIN blocked/PIN2 blocked

You have entered your PIN or PIN2 code incorrectly three times in a row.

To unblock, see *SIM card lock* on page 56.

Codes do not match

Codes that you have entered do not match. When you want to change a security code, for example your PIN, you have to confirm the new code. See *SIM card lock* on page 56.

No netw. coverage

Your phone is in flight mode. See *Flight mode* on page 51.

Your phone is not receiving any network signal, or the received signal is too weak. Contact AT&T and make sure that the network has coverage where you are.

The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone

that is causing the problem. Please contact the nearest Sony Ericsson service location.

Emerg. calls only

You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See *Emergency calls* on page 31.

PUK blocked. Contact operator.

You entered your personal unblocking key code (PUK) incorrectly 10 times in a row.

Hearing Aid Compatibility

Your phone is designed for Hearing Aid Compatibility (HAC) and uses settings to optimize its use with hearing aids.

Hearing Aid Settings

You can choose the setting in the phone to match the setting in your hearing aid before making or receiving calls.

To select a phone setting for HAC

- Select **Menu > Settings > General > Accessibility > Hearing aid** and choose an option:
- **On** – Use when your hearing aid is set to T-coil mode.
- **Off** – Use when your hearing aid is set to Microphone mode.

Hearing Aid Compatibility and New Technologies

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to

try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider about its return and exchange policies and for information on hearing aid compatibility.

immune than others to interference. To determine the (M) rating of your hearing aid, please contact your hearing health professional. More information about digital wireless devices and hearing aid compatibility can be found at www.sonyericsson-snc.com.

Hearing Aid Compatibility Rating

This model handset was designed to comply with the requirements set forth in Section 20.19 of the Federal Communication Commission's (FCC) rules governing hearing aid compatibility (HAC), for the reduction of RF interference and magnetic coupling (T-coil) to hearing aids. The Microphone (M) rating and T-coil (T) rating is defined and labeled on the handset box. Devices meeting HAC compliance must have a minimum M3 and/or T3 rating or above as defined by the FCC in accordance with the latest ANSI Standard C63.19. The (M) rating refers to lower RF emission levels of the handset. The (T) rating refers to the magnetic coupling between the handset and the T-coil compatible hearing aid. Some hearing aids are also provided an (M) rating, and are more
