Dear Mr. Li,

Thank you for your email. Regarding your response to question 2, the top half of p.15 of the Operational Description describes the RFID transmitter (including a statement regarding the carrier frequency and modulation type). Please revise this page so that the EUT is described as having an RFID receiver only, and resubmit the Operational Description.

If you have any questions, please do not hesitate to contact us. Thank you.

Sincerely,  
PCTEST TCB
