Adding the headset to the phone

10

Before you can use your Bluetooth headset with your phone it has to be added once to the phone. Follow the instructions from the phone user guide on how to turn on Bluetooth in your phone.

1. Turn on Bluetooth in your phone.
2. Turn on Bluetooth visibility in your phone. This makes your phone visible to other Bluetooth devices.
3. Prepare your headset according to page 15.
4. If your phone supports auto pairing, press YES when Add device? appears in your phone to complete the procedure. If not, continue with step 5.

Draft for Sony Ericsson Internal Use Only

5. Prepare your phone according to the phone's user guide on how to add a Bluetooth device. Please note that for some phones you may need to enter a passcode. The headset passcode is 0000.

After you have added the headset to the phone, it will automatically connect to the phone as soon as it is turned on and within range.

No connection between headset and phone

Make sure the headset is charged and within range of the phone. Check or redo the Bluetooth settings in the phone. Try to pair the headset again (see p.10).

For more information on Bluetooth and pairing, go to www.sonyericsson.com/learnabout

The headset is automatically switched off

- The battery is too low. The indicator light on the headset flashes red and you hear a low beep.
- The headset switches off if you do not add it to the phone within 10 minutes.

Unexpected behaviour

Reset the headset (see p.31).

Battery capacity

A battery that has been infrequently used, or a new one, could have reduced capacity. It may need to be recharged a number of times.

Redial does not work

If the call list in the phone is empty you cannot use the redial function.
