FCC Class II Permissive change for FCC ID: PY7PM-0801
Applicant: Sony Mobile Communications Inc.
Grant date: 07/22/2014

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: PY7PM-0801

The major change filed under this application is:

Change #1:

Additional RF power reduction is applied at Hotspot mode in PCS1900, UMTS Band 2, and LTE Band 2 by the updated SW.

This Class II Permissive change only affects the 1900 MHz band (PCE Equipment Class) , 2.4 GHz (DTS Equipment Class) and 5.8GHz (NII Equipment Class) Hotspot mode operation. Therefore partial SAR retesting was performed only on those bands in Hotspot mode where additional power reduction has been applied i.e. PCS1900, UMTS Band 2, and LTE Band 2.

The highest SAR values of those listed on the original FCC grants will continue to be listed in the SAR information leaflet.

If you have any questions regarding this application, please feel free to contact me.

Sincerely Yours,

Mika Kaneko
Sony Mobile Communications Inc.
