FCC Declaration on Electrically Identical Models

TO WHOM IT MAY CONCERN

We, Sony Mobile Communications, declare on our sole responsibility that the tablet with the FCC ID: **PY7TS-0020** is identical in hardware and software between the 16GB and 32GB version.

The only difference between these tablets is that one variant has a 16GB internal memory chip, while the other has a 32GB internal memory chip. We attest that above changing are not relevant for any RF behaviour subject to regulatory items.

Therefore all submitted test reports issued for the 16GB variant are also applicable for the 32GB variant.

If you have any questions, please feel free to contact us at the address shown below.

Yours sincerely

Razvan Bujila
