RE: FCC ID: PYARH-26_ATCB000987
Attention: Tero Lehtinen

I have a few comments on this Application.

1. Please note that while you have provided a block diagram for the PCS and Cell you have not provided the block diagram of the Bluetooth. Please provide a block diagram of the Bluetooth transmitter section giving the frequencies and their paths.
2. Please note that I did not see the Bluetooth schematics provided for this device. Please provide the BT schematics.
3. Please note that this is a part 15 device as well as a licensed device. As such, all of the pertinent part 15 statements are required. Your manual states, "Unauthorized antennas, modifications, or attachments could damage the device and may violate regulations governing radio devices." Please note that the caution is to inform the user that these unauthorized modifications may void the users authority to operate the equipment not just that they may violate the regulations. Please clarify the statement.
4. Please note that this is a part 15 device as well as a licensed device. Please note that 15.19(a)(3) states, All other devices shall bear the following statement in a conspicuous location on the device:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

As this device is small, this statement can be in the manual. Please provide the precise statement in the manual as required by part 15.19(a)(3) above.

5. Please note that the test reference and summary data in the GSM850 report states part 24 (see pages 4, 8, 17, 21, 27 and 29 of the 850GSM report). As this is for the 800MHz cell band, please refer to the correct rule parts in the respective reports.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
