RE: FCC ID: PYARM-216V_ATCB004460

Attention: Vesa Vuorio

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the device contains an RFID transceiver. However, this device is not listed on the 731. Please include the RFID frequency on the 731 form.
2. Please note that the application states short term confidentiality applies. Please note that no request letter for short term confidentiality has been provided. If short term confidentiality is being requested, please provide the short term confidentiality letter listing the specific exhibits.
3. Please note that if short term confidentiality is being requested there are photos of the device in the SAR report. Please remove these photos and provide them as a separate setup photo exhibit and then please request short term confidentiality for the set up photos.
4. Please note that other than the diagram on page 5 of the RFID report there is no indication that a loop antenna was used below 30MHz. Please verify that for all radiated emissions measurements below 30 MHz a loop antenna was used.
5. Please note that the highest ERP/EIRP value in the EMC report is 1.9w while the highest reported radiated power in the SAR report is only 1.459w. Please note that while radiated power levels may vary by up to 3dB between the EMC and SAR reports, when there is a difference the SAR report should be the higher value. Please explain why this was not done and please test the device SAR at the highest power setting.
6. Please provide the calibration data for the SAR report as required by the FCC.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
