March 3, 2009

RE: FCC ID: PYARM-465_ATCB007324
Attention:

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the SAR separation distance in the manual is listed as XXX (see page 70 of the manual). Please correct the manual to give the same 2.2 cm separation distance as stated in the SAR report.
2. Please note that the part 22-24 test reports state that testing was completed on Feb 17, 2009. Please note that this is the same day as RSS133 issue 5 came into play and is the date that all testing needed to be concurrent with the latest issue. Please verify that testing was performed before the 'drop dead' date of RSS133 issue 4 and that testing was not performed after RSS133 issue 5 became to default standard. If testing did in fact take place after RSS133 issue 5 came into existence, please compare and adjust the report to show compliance to the latest RSS issue.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Except as described in §0.459, correspondence and responses should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
