RE: FCC ID: PYAWE04M_ATCB003923
Attention: Juha Lahti / Ari Havela

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that this application has short term confidentiality requested. Please note that the label sample provides a drawing of considerable detail. Please note that the label cannot be held confidential. As the label drawing shows considerable detail of the device, the outward appearance of the device is clearly visible to any who view the label exhibit. This may be remedied by providing a simple box drawing of label location. If this is the desired approach please provide a simplified label drawing, other wise the appearance of the device may be public knowledge before the Short term confidentiality expires.
2. Please note that the manual (page 3) states that the device is EDR compliant; however it does not appear as if EDR test data has been provided. Also, only FXD technology for BT is shown on the 731. If the device is EDR capable, please provide test data supporting compliance. Please explain.
3. Please note that as this is a part 15 device the FCC statement specified in 15.19(3) must either be on the device or in the manual. Please note that this statement does not appear to be provided. As this device is small please either provide this in the manual as required.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
