RE: FCC Class II Permissive Change for FCC ID: PZR-68460

Dear CETCB,

We would like to request a Class II permissive change for FCC ID: PZR-68460.

Major Changes filed under this application are:

1. Added one antenna to the list of approved antennae (AeroVironment 68856, Broadband Dipole Antenna, 3 dBi gain)

Testing has shown that the changes to not affect RF parameters such as output power, frequencies and modulations supported.

If you have any questions, please contact me for assistance.

Sincerely

A handwritten signature in black ink, appearing to read "John R. Cenicola", with a stylized flourish at the end.
