RE: FCC ID: PZWKCS_ATCB001022

Attention: Yukie Koyama

I have a few comments on this Application.

1. Please note that the manual has a statement that states a 20cm separation is required and you have an 'insert' that states SAR. However, there is no indication that the insert is to replace the existing manual statement. Also please note that handheld devices are automatically categorized as portable not mobile. As such the 20cm statement is not correct. Please correct the manual to follow the portable category of this device.
2. Please note that while you have provided a manual of the host, you have not provided the manual/installation guide for the EUT. Please provide this installation guide for this module.
3. Please note that you only show one lead being tested for AC conducted tests. Both lines must be tested. Please provide evidence that both leads (hot and neutral) were tested for conducted emissions.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
