Request for Confidentiality**

Gentlemen:

Pursuant to sections 0.457 and 0.459 of the Commission's Rules, Maxon Electronics Australia Pty Ltd. hereby requests confidentiality of the Block Diagrams, Circuit Diagrams, Circuit Description, Parts List, Tune-up Procedure, and Operational Description attachments for the subject application.

These documents contain detailed system and equipment description and related information about the product in which Maxon Electronics Australia Pty Ltd. considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Maxon Electronics Australia Pty Ltd. considers that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application will not be made before the date of the Grant for this application.

Sincerely,
