**Re: Xplore Technologies Corporation
FCC ID: Q2GGOBI3K-XPL
Part 2.933(b) Change in Identification of Equipment**

Xplore Technologies Corporation is requesting a Change in Identification of a previously certified device under FCC Rule Part 2.933(b). The device was originally certified under FCC Rule Part 24E (PCS Licensed Transmitter).

The new equipment identification is FCC ID: Q2GGOBI3K-XPL. The original equipment identification is FCC ID: NCMOMO6892 and the original Grantee is Option NV. The original application was certified on March 03, 2011.

The test data submitted with the original application continues to be representative of the newly identified device. The newly identified device is physically, electrically and mechanically identical to the originally certified device.

External device photographs and the FCC ID label are submitted herein.

Please contact the undersigned if you have any questions.

Sincerely,

Jason Moreland
Xplore Technologies Corp.
