**Re: Xplore Technologies Corporation
FCC ID: Q2GI6200-XPL
Part 2.933(b) Change in Identification of Equipment**

Xplore Technologies Corporation hereby requests a Change in Identification of a previously certified device under FCC Rule Part 2.933(b). The device was originally certified as a composite device (single modular approval) under FCC Rule Parts 15C (DTS) and 15E (UNII).

The new equipment identification is FCC ID: Q2GI6200-XPL. The original equipment identification is FCC ID: PD9622ANH and the original Grantee is Intel Corporation. The original application was certified on September 17, 2009.

The test data submitted with the original application continues to be representative of the newly identified device. The newly identified device is physically, electrically and mechanically identical to the originally certified device.

External device photographs and the FCC ID label are submitted herein.

Please contact the undersigned if you have any questions.

Sincerely,

Jason Moreland
Xplore Technologies Corp.
Safety and Compliance Engineer
