

Distance From Bottom Center to Flat Surface

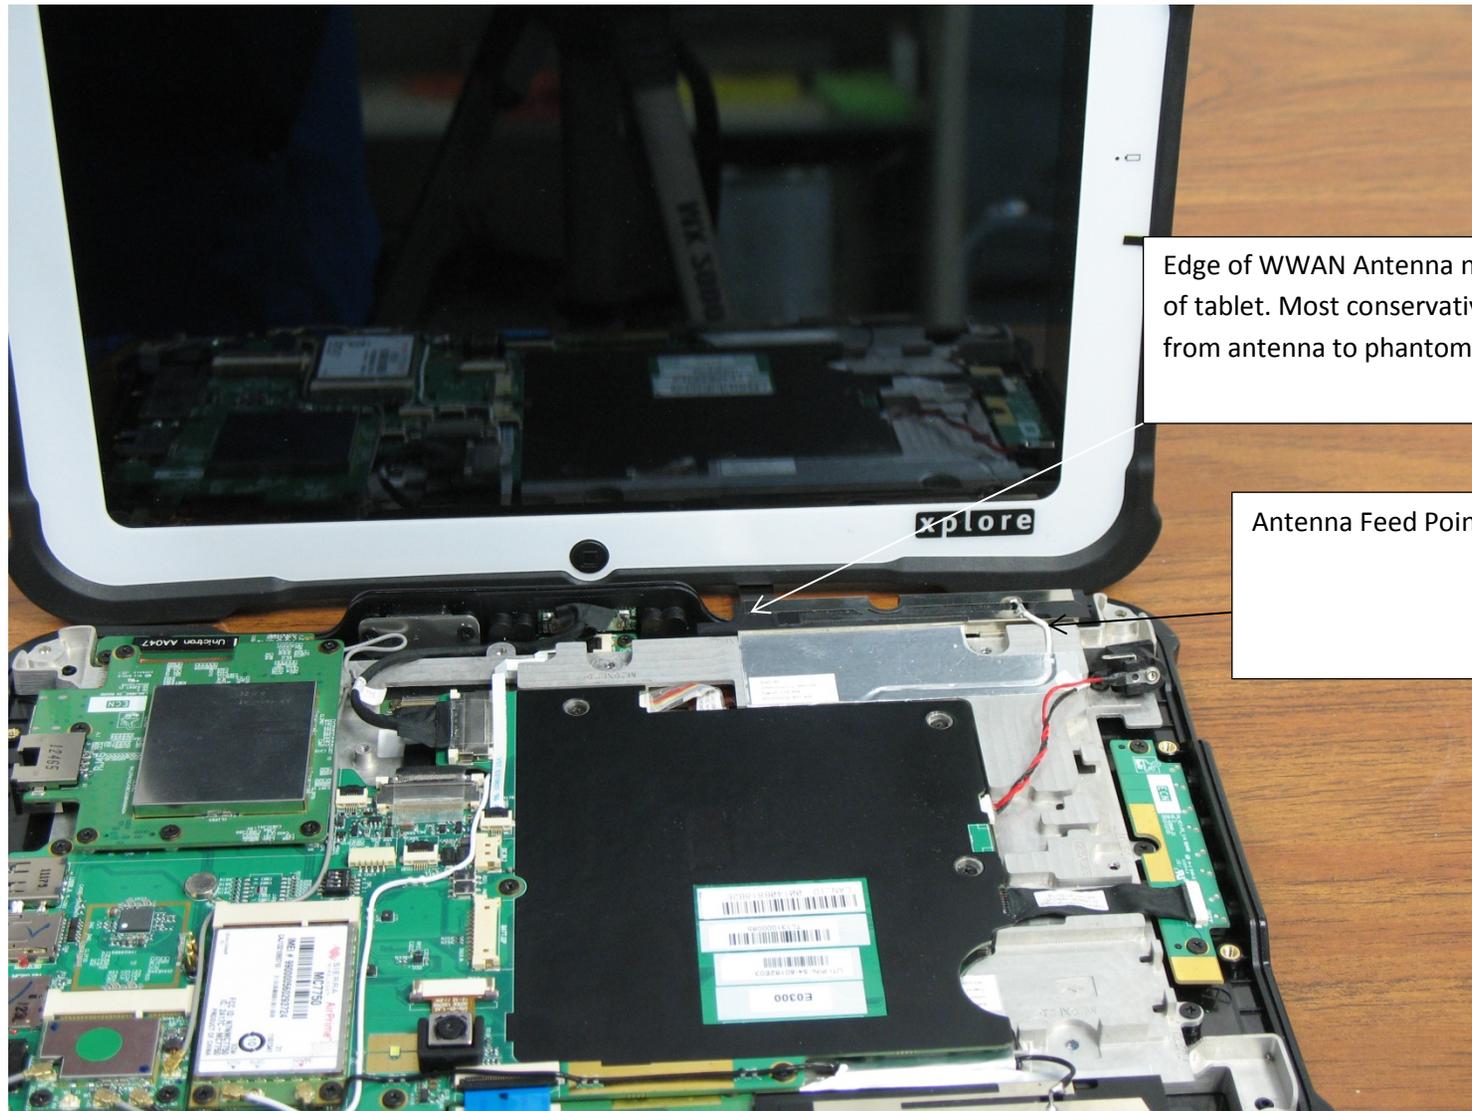

Distance From Bottom Center to Flat Surface

Distance From Bottom Center to Flat Surface (Measured with Gauge Block – 4.9mm)

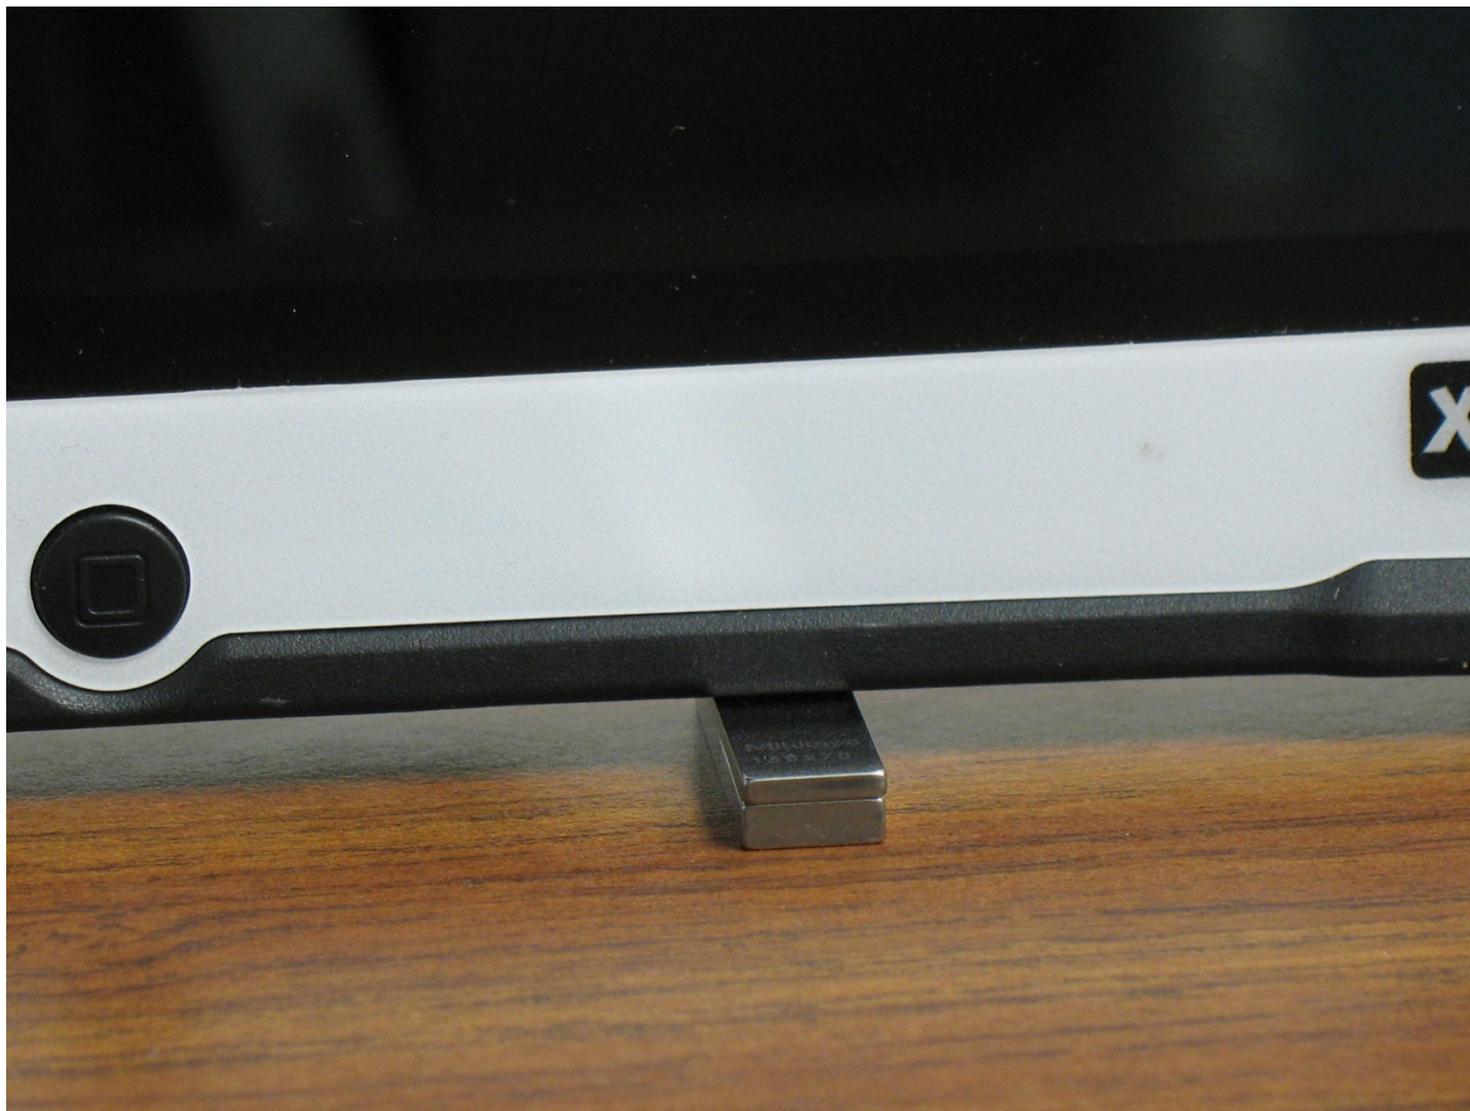

Distance From Bottom Edge to Flat Surface at location of WWAN Antenna (antenna edge closest center of tablet) (Measured with Gauge Block – 4.7mm)

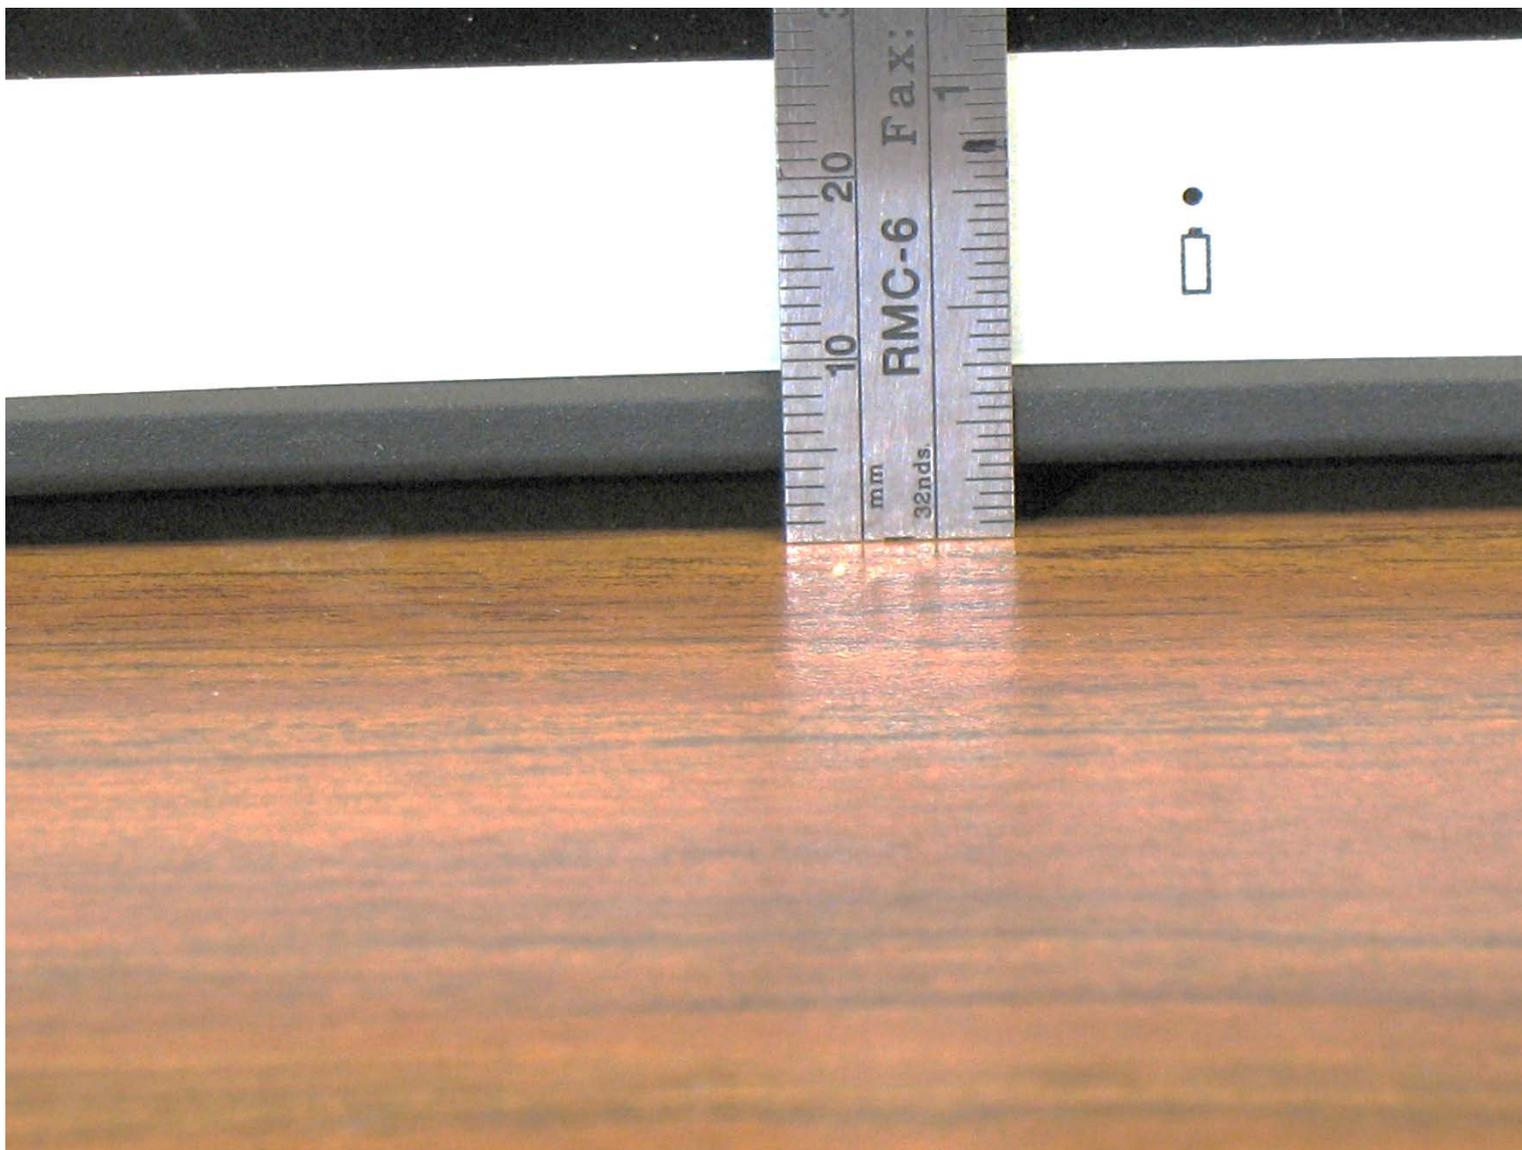

Edge of WWAN Antenna nearest center of tablet. Most conservative distance from antenna to phantom.

Antenna Feed Point

Distance From Bottom Edge to Flat Surface at location of WWAN Antenna (antenna edge closest center of tablet) (Measured with Gauge Block – 4.7mm)

Distance From Right Edge to Flat Surface

Distance From Right Edge to Flat Surface (Measured with Gauge Block – 3.2mm)
