SUBJECT: Class II Permissive Change for FCC ID: Q2GMC7750

This application is for a Class II permissive change to the Xplore Technologies MC7750 wireless module (FCCID: Q2GMC7750). This module is currently under review as a change in ID application. The following changes are covered by this application:

To enable the co-location of the wireless module with FCCID: Q2GMC7750 into the Xplore Technologies Rugged Tablet PC (Model: iX101T1, FCCID:Q2GWG7550). No radio parameters have been changed for either of the FCCIDs mentioned above.

Sincerely,

A handwritten signature in black ink that reads 'David J Ball'.
