1

CONNECT FOR SOUND

- A Using the RCA to RCA cable provided, connect the NODE 2 directly to an input on your existing stereo, amplifier or home theater receiver.
- B Alternatively, using the Mini Plug to RCA cable provided, connect the NODE 2 directly to your computer, dock player, or bookshelf system.

A digital optical cable or digital coaxial cable (not included) can also be used to connect the NODE 2 to equipment with a digital input.

2

CONNECT TO POWER

- A Select the AC Power Cord appropriate for your region and plug it into the Player, and then into your wall outlet.
- B The NODE 2's LED button should turn Solid Green, indicating that the Player is in Hotspot Mode and ready to be added to your home WiFi network.

Never force a power cord into a wall outlet. An adaptor may be necessary in certain regions.

3

CONNECT TO WIFI

To see an instructional video on WiFi Setup, please visit www.bluesound.com

- A On your tablet or smartphone, **look for the WiFi network (hotspot) matching your NODE 2's unique network ID**, and join it. The network ID is listed as the product name (i.e. NODE 2) immediately followed by the last four digits in the MAC (Machine Access Control) address (example: **NODE2-001A**). The full 12-digit MAC address is printed on a sticker on the back panel of your Player.
- B Open a web browser on your tablet or smartphone and enter **setup.bluesound.com**, and press "Go". A control panel page should then appear.
- C From the main menu displayed, select **Configure WiFi**.
- D Select **your home WiFi Network** from the **Configure Wireless** drop down menu.
- E Enter your home network's **Wireless Password** in the field provided (if it is a protected network).
- F Select a **Room Name** from the drop down list, or create a customized room name in the field provided.
- G Press **Update** and wait for the Player's light to turn solid blue, indicating that the Player has successfully joined your home WiFi network.
- H Repeat steps A-G for each additional Bluesound Player.
- I **Reselect your home WiFi network** from your tablet or smartphone's **main network settings**.

Alternatively, the NODE 2 can be connected directly to your wired home network or router using the Ethernet cable provided.

4

DOWNLOAD THE APP

All Bluesound Controller Apps for Apple iOS devices (iPhone, iPad, iPod), Android devices, Kindle Fire, and Windows or Mac desktops are available for download at www.bluesound.com/downloads

Congratulations, your Player setup is complete!

It's time to connect your music. Launch the App for the following playback options.

CONNECT TO MUSIC

Your Music : To play music stored on a computer or NAS device, open the Navigation Drawer by tapping the menu icon (three dots) in the App, choose **Configure Player** from the menu, and select **Configure Network Shares**. Follow the screen prompts, and open every Room in your home to your entire digital music library.

Internet Radio : Simply select **TuneIn** from the **Music Services** menu, and find your favorite radio station. Or, explore and discover the thousands of radio stations streaming live 24/7 from anywhere on the planet via **TuneIn**.
