1

CONNECT FOR SOUND

- A Using the RCA to RCA cable provided, connect the VAULT 2 directly to an input on your existing stereo, amplifier or home theatre receiver.
- B Alternatively, using the Mini Plug to RCA cable provided, connect the VAULT 2 directly to your computer, dock player, or bookshelf system.

A digital optical cable (not included) can also be used to connect the VAULT 2 to equipment with a digital optical input.

2

CONNECT TO NETWORK

- A Using the Ethernet cable provided, connect one end to the VAULT 2, and the other end directly to your wired home network or router.

3

CONNECT TO POWER

- A Select the AC Power Cord appropriate for your region and plug it into the Player, and then into your wall outlet.
- B The VAULT 2's LED button should turn Solid Green, indicating the Player is in Hotspot Mode and ready to be added to your home WiFi network.

Never force a power cord into a wall outlet. An adaptor may be necessary in certain regions.
