Subject: Ad Hoc Mode Function Declaration

FCC ID: Q34-E500

To Whom it may concern,

This device is either acting as slave/client device under the control of a master device or as a master device in Hot Spot/Ad Hoc Mode itself.

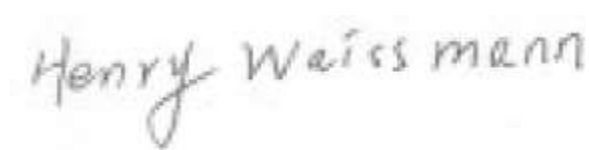

The operating channels for the devices marketed to the US/Canada are firmware limited to channel 1 ~ 11 (2412 ~ 2462 MHz).

The end-user has no possibility to select any additional operating channels or any other country/region codes.

Please contact the one signed below or the authorized agent for this filing.

Thank you.

Regards,

A handwritten signature in dark ink that reads "Henry Weissmann". The signature is written in a cursive style with a large, stylized 'H' and 'W'.
