

Operational Description

Integrated Exciter EX-3300

FCC ID: Q3H EX3300

The Hand Hygiene Integrated Exciter (EX-3300) is a component of AeroScout location system. This device acts as a beaconing device that triggers AeroScout Tags to transmit a message to the AeroScout location system and modify the tag behavior. The integrated unit is embedded into Hand Hygiene dispenser and will act as a single device for Healthcare solutions.
