Authorization and Evaluation Division

Subject: Permissive Change Class II for AeroScout, Multi Sensor Tag
FCC ID: Q3HTAG2000.

To whom it may Concern,

The changes to the original product are as follows:

1. A new balcony was added which supports
 - 1.1. External voltage measurement capability
 - 1.2. External humidity and temperature measurements
2. Hole in front cover to let the tag to measure the environment temperature and humidity
3. The Transmitter is electrically identical to the original device.
4. Since the TAG-5400 model is used for Sensors telemetry the TX power was reduced by software in order to reduce power consumption and improve battery life

We request a Permissive Change Class II based on the above.

Thank you for your assistance.

Regards
