To: Federal Communications Commission
Authorization and Evaluation Division

Subject: Permissive Change Class II for AeroScout, Tag with extended battery
FCC ID: Q3HTAG2000.

To whom it may concern,

The product was originally authorized for FCC certification on 10/12/2009 under FCC ID Q3HTAG2000.

On 08/21/2013, a C2PC Grant was issued for FCC ID Q3HTAG2000.

New changes to the original product are as follows:

1. The capacitor CELLERGY (CLG04P020F12) was replaced with a new capacitor VISHAY Cap Tantalum 2.2mF (592D228X96BR3X2T).
2. Battery type (AA instead of 1/2AA)
3. Different plastic outer encasing is used.

The device remains electrically identical to the previously granted device.

We request a Permissive Change Class II based on the above.

Thank you for your assistance.

Regards
