

A photograph of an Aeroscout TAG T2S, a battery-operated target acquisition system. The device is mounted on a circular metal base and is supported by a dark wooden table. A white sign is attached to the front of the table, identifying the equipment. The setup is located outdoors on a paved area under a wooden structure. In the background, there is a dirt area, some vegetation, and a building with a white roof. A red flag is visible in the upper right corner.
