RADWIN

FCC SDR Class III Permissive Change Declaration

Date: November 10, 2015

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Attn: OET Dept.

Product/ Model Number: 5 GHz Wireless Module / AP0158770

Regarding the requirements for class III permissive changes identified in the SDR application guide (KDB 442812 D01 SDR Apps Guide v01), the following information must be provided when performing a Class III permissive change.

1) Following are detailed the versions of software that are approved in the original grant, and all other granted Class III permissive changes including the requested Class III change.

Product Family	Initial Grant SW Version	Initial Grant representative SW Versions	First Class III Change SW Version	Second & Third Class III Change SW Version
RADWIN 2000	2.8.00	2.8.01 – 2.8.19	2.8.20	4.2.40
RADWIN 5000	3.6.00	3.6.01 – 3.6.19	3.6.20	4.2.40

2) We declare there have been no changes to the SDR security documentation. The safeguards in place in the original grant are still in place.
