

## PASSIVELY SCANNED FREQUENCY PLAN

---

Regarding CHANNEL/ FREQUENCY PLAN as discussed in application guide 905462 D03 Client Without DFS New Rules v01r01, RADWIN is providing the Frequency Plan that is being passively scanned by the product **SU Pro, SU Air**.

The product **SU Pro, SU Air** passively scans the following frequency channel range in passive mode. Active scanning is only performed by an associated DFS-certified master device:

Frequency Band (MHz)	Lowest Frequency Channel (MHz)	Highest Frequency Channel (MHz)
5250 - 5350	5255	5340
5470 - 5725	5480	5715
