

FCC SDR Class III Permissive Change Declaration

Date: January 1, 2017

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Attn: OET Dept.

Product/ Model Number: Outdoor Subscriber Radio Unit / SU Pro, SU Air

Regarding the requirements for class III permissive changes identified in the SDR application guide (KDB 442812 D01 SDR Apps Guide v02r03), the following information is provided for this Class III permissive change.

- 1) Device tested 40 MHz bandwidth at 5830 MHz frequency channel
- 2) Applied the new Emission mask requirement for UNII-3 band as required under FCC Part 15.407 dated July 18th, 2016
- 3) Software approved in the original grant:

Product Family	Initial Grant SW Version	Initial Grant representative SW Versions	Release SW Version
SU Pro, SU Air	4.9.00 LA	4.9.01 LA – 4.9.05 LA	4.9.00

- 4) Radwin hereby confirms that there is no change to the Software, Distribution and Security Documentation.

We declare there have been no changes to the SDR security documentation. The safeguards in place in the original grant are still in place.
