

Channel Bandwidths Restriction Statement

January 17, 2013

Office of Engineering and Technology
Federal Communications Commission

We, RADWIN Ltd., hereby state that the RF module, under FCC ID: Q3KRW5XMOD, will be restricted to operate in channel bandwidths 5, 10, 20 MHz when operating in the UNII bands that require DFS capabilities (5250-5350 MHz and 5470-5725 MHz). The 40 MHz channel bandwidth is out of the scope of operation within these bands.

Sincerely,

Itai Rubinstein
Engineering Department Manager
RADWIN Ltd.
